Don't expect boring theory, but interactive workshop with practical exercises. We also offer an early-bird discount of 20% for bookings made more than one month in advance.

Benefits of our Public Education Courses include:

- A flexible way of being able to educate smaller groups
- Customisable based on individual needs
- Live discussion and practices sharing in a group
- Places can be booked at short notice

IN-HOUSE TRAININGS

For a fast and effective way of embedding new capability into your teams, we can customise our courses to your organisation's unique situation and context. Training may include following: Agile, Scrum, Kanban, Design Thinking, Lean Startup a OKRs. Experience has shown that educating people involved in the same work at the same time delivers more consistent, better quality, long-term outcomes. It also leverages your investment in training as we can focus on company-specific issues throughout.

Benefits of our In-house Training include:

- Material tailored to your needs, plus the opportunity to discuss issues specific to your organisation during course exercises
- Focus on resolution of company specific issues
- Custom pricing
- Cost-effective for a larger number of participants

CONSULTING

We are mainly consulting pre and initial stages of agile transformations from management and detailed aspects using our broad experience from various business contexts. Our customer appreciate saving of time and avoiding mistakes can be undertaken based on our feedback.

Workshops

We love to run inspiring & hands/on workshops based on your needs. You can enjoy agile practices, engage teams, increase motivation and find out what are new responsibilities across organisation. Each workshop has clear goal and outcomes defined.

Coaching & Mentoring

Coaching and mentoring is great way how to leverage your current agile capabilities. We provide individual and team coaching. We will be supporting you to get better as Scrum Masters or leaders. Teams will become hi-performing.
